# Ph.D. Summer School on

*"Next-Generation Electric Vehicle  
Charging Systems Using Wide  
Bandgap Power Devices"*

July 21-25, 2026

## Insights:

- Expert lectures by national and international speakers on WBG Power Devices (SiC/GaN) for High-Efficiency and High-Power-Density Electric Vehicle Charging Systems
- Practical sessions on control of SiC-based converter for EV Charging applications.
- Research presentations by Ph.D scholars with interactive Q&A sessions.
- Certificates for all participants and award for outstanding presentation.

## Registration:

FREE

Who Can Apply:

- PhD Student.
- Project Staff.
- Faculty
- Industry Professionals.

Deadline: 9th July

1<sup>st</sup> Come 1<sup>st</sup> Serve

Registration is **Open Now**

ORGANISED BY

*National Institute of Technology  
Agartala*

Dr. Karuna Kiran  
Assistant Professor,  
Department Of Electrical Engineering  
NIT Agartala  
✉ [karuna.ee@faculty.nita.ac.in](mailto:karuna.ee@faculty.nita.ac.in)

## Mentored By

1. Prof. Tanmoy Bhattacharya, IIT Kharagpur
2. Prof. Soumya Shubhra Nag, IIT, Delhi
3. Prof. Koushik Basu, IISc Bangalore
4. Prof. Suvendu Samanta, IIT Kanpur
5. Prof. Sandeep Anand, IIT Bombay
6. Prof. Rajeev Kumar Singh, IIT BHU Varanasi
7. Prof. Arvind Kumar Jain, NIT Agartala

# About NIT Agartala

National Institute of Technology Agartala (NITA) is a premier institute of national importance, committed to excellence in education, research, and innovation. Equipped with modern facilities and a vibrant academic environment, NITA fosters technical expertise, interdisciplinary learning, and holistic development, serving as a key hub for engineering advancement in Northeast India.

## About Department of Electrical Engineering

The Department of Electrical Engineering at NIT Agartala offers high-quality education and advanced research opportunities across core and emerging areas of electrical engineering. With a dedicated team of experienced faculty and motivated students, the department fosters innovation, technical excellence, and interdisciplinary learning. It is supported by well-equipped laboratories, including state-of-the-art Power Electronics and Drives facilities, enabling hands-on training, experimentation, and cutting-edge research.

## About the Ph.D. Summer School 2026

The Ph.D. Summer School 2026 focuses on next-generation electric vehicle charging systems using Wide Bandgap (SiC/GaN) devices. It provides advanced insights into converter design, control strategies, fast charging, and grid integration. The program integrates expert lectures, hands-on experiments, simulation workshops, and research discussions to equip participants with practical skills for sustainable mobility and cutting-edge power electronics applications.

## About Women in Engineering (WIE) Event

The IEEE Women in Engineering (WIE) initiative aims to promote inclusivity and empower women in the field of engineering. The event will highlight opportunities in power electronics, provide insights into career pathways, and create awareness about government schemes supporting women scientists and researchers.

### Special Features:

Dedicated Forum, panel discussion, expert mentoring and interactive guidance sessions for women participants

## WIE Event (July 22, 2026) Registration (Female only)

Scan Here To  
Register for  
WIE Session.

### Selection:

After receiving applications, we will shortlist candidates based on the details filled up by them in the application form and based on first cum first-serve basis.

Selected candidates will have to complete final registration by filling out a registration form, which will be made available on the website after announcement of selected candidates, via email

### Location:

Department of Electrical Engineering  
National Institute of Technology Agartala (NITA)

## Distinguished Guest Lecturer

**Prof. Akshay Kumar Rathore**  
Department of Electrical &  
Computer Engineering  
National University of Singapore

## Women In Engineering (WIE) Chair

**Prof. Trapti Jain**  
Department of Electrical  
Engineering  
Indian Institute of Technology  
Indore

## Our Resource Persons:

- 1. Prof. Sujit Kumar Biswas, Professor, STCET, Kolkata  
Former Professor, Jadavpur University, Kolkata
- 2. Dr. Ranjan Kumar Behera, Associate Professor, IIT Patna
- 3. Prof. Trapti Jain, Professor, IIT Indore
- 4. Prof. Arvind Kumar Jain, Professor, NIT Agartala
- 5. Dr. Suvendu Samanta, Associate Professor, IIT Kanpur
- 6. Dr. Abanishwar Chakrabarti, Assistant Professor, NIT Agartala
- 7. Dr. Adrish Bhaumik, Assistant Professor, IIT BHU

## Important Dates:

- Registration Deadline: July 09, 2026 (6 PM)
- An Email confirmation will be sent after approval.

## Facilities

- Access to all technical talks and practical sessions.
- Tea/snacks, Lunch & Dinner (during July 21-25, 2026).
- Free hostel accommodation at NIT Agartala.
